Dear [redacted]

STAT

The recent agreement of the International Energy Agency to coordinate and build stocks is a major foreign policy achievement in forging greater energy security for the United States and its allies. You have played a major role in achieving this consensus which will set the direction for international energy policy for many years to come. Your presentations before the Cabinet and your many briefing papers for the President have been central to our success.

I have personally enjoyed having you at the National Security Council and will miss your day-to-day contributions. However, I am delighted that you will be assuming important new responsibilities at the Central Intelligence Agency. We look forward to staying in touch with you and gaining insight from your energy assessments in the future.

With best wishes,

Sincerely,

Robert C. McFarlane
